Dear Mark,

8/19/89

Thanks for the copy of your thesis. I note its title and your description of it in your letter are not identical

I wont have time to read it for a while. After I do I'll give it to Hood College, where all my records will be deposited so students can have access to it now.

Bear in mind as you plan what you will do that there are multitudinous records of which you have no knowledge

Whether or not the alleged evidence could have been used against Oswald at trial is a very good subject, esp. for a pre-law or law student. In addition to what I have in my books on this ~~there~~ there is much in my FOIA affidavits

My non-lawyer's opinion is that little or none could have. Should you also consider pre-trial publicity on this? Dan Shepherd, Billy Sol Estes case, etc. Or applicable Texas law, why not write White State and Dallas A.G. and ask them?

I keep scratch paper where I sit and I have reused what I used to throw away since the 1973 energy crisis. Takes a lot to make paper (Your member is on the conservation & conservation. This is a practice of both.)

Good luck in law school. Remember, that should come first!

Good luck with my writing, too!

Harold

My copy of the Portland 11/22/63 press conference transcript seems to have disappeared. I'd appreciate it if you'd send me a copy. Thanks. I'll anticipate your paper for when you are here or get it back from them.
